full-service COBRA administration made easy

ACCOUNT MANAGERS

Every client is provided with an account manager who is thoroughly trained in all aspects of COBRA to answer your questions quickly.

PROOF OF MAILING

Notices are sent "proof of mail" so we can prove when a notice was sent and to what address. This is valuable for both legal purposes as well as having an answer for "qualified beneficiaries" who call us wanting to elect coverage after their election period has ended.

ONLINE REPORTING

All clients have online real-time reports showing them who has elected COBRA and their coverage information as well as those in their election period and when the notice was sent. Premium payment reports are sorted by location, benefit, and vendor. Reports can be customized to your company's requirements.

DAY-TO-DAY COBRA RESPONSIBILITIES

When a participant elects COBRA we reinstate them with the carriers, track their COBRA period, answer all phone calls, collect premiums, enforce the grace period, send required letters, terminate their coverage with carriers along with providing exceptional customer service.

OPEN ENROLLMENT PROCESSING

Our Open Enrollment process is all-inclusive. The employer does nothing but provide the rates. We handle all mailings including any plan change information that may be needed. The information is returned to us and we communicate any changes to the carriers.

why choose Leavex
